Response to Amendment

The amendment filed on 06/13/05 is sufficient to overcome the prior art reference.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: 22, 23, 29, 48 and 57 are allowable because the prior art of record fails to disclose or suggest or teach the recited distal end of the structure is cylindrically uniform in shape and wherein the cylindrically uniform distal end of the structure is 0.5-1 mm in length (see claim 22); the throated structure further defines at least one channel in fluid communication with the nozzle for receiving a flow of fluid such that the trajectory of the droplet entering the entrance port is alterable by the flow to a predetermined path as the droplet passes through the exit port; and wherein the throated structure is 1-150 mm in length (see claim 23); the throated structure is attached to a movable platform configured to translate the throated structure in a planar direction relative to a well plate disposed adjacently to the proximal end of the nozzle (see claim 29); the channel through which the fluid flows is defined between a well mask and the first surface, the well mask defining a plurality of orifices each located adjacent to a corresponding entrance port in the first surface (see claim 48).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
